

Plumbing Services

PLUMBING SERVICES:

Safe, smoothly flowing systems

- Certified backflow services
- Design/build services
- Emergency response
- Installation (new construction, renovation, retrofit)
- Maintenance and repair
- Site utility services
- Specialized healthcare facility and medical gas system installation and service
- Potable and non-potable water systems

Effective prevention, rapid solutions

Our experts can also check your line's location and condition with video cameras for effective preventive maintenance, as well as rapid problem identification and resolution. When obstructions do occur, we have a complete assortment of auger sizes to clear your system quickly and get it flowing smoothly again. Our goal is always the same — to service, maintain, and ensure the reliability of your facility's plumbing systems.

EMCOR Services Scalise Industries' reliable, responsive plumbing services are performed by our fully licensed experts, who are certified in the tri-state area to provide a full range of plumbing services, including gas line fusing and medical gas system installation.

We can keep drainage and sewage systems trouble free, while satisfying stringent local health and safety regulations.

ONE SOURCE. Total Solutions. Total Satisfaction.

We're here for you.
