

CAPABILITIES

End-to-End Mechanical Solutions

Since 1946, EMCOR Services Scalise Industries (ESSI) has built a reputation for delivering outstanding, customer-focused mechanical services to both commercial and institutional clients alike. Applying expertise and trade knowledge acquired during our many years in the industry, **our mission is to continually enhance the value we bring to customers on every project, regardless of size or complexity.**

We are committed to helping our clients get the most out of their equipment and facilities for their full lifecycle, which is why we also offer comprehensive maintenance programs, commissioning, code compliance and testing, as well as energy retrofits, high efficiency building automation systems, and much more.

All of these services are packaged in our innovative design-build methodology and delivered by a team of professional technicians and certified engineers.

MEP Solutions that Meet the Most Demanding Requirements

From large-scale projects that require extensive detail and planning, to small same-day jobs, the ESSI team offers the highest standard of mechanical and plumbing construction for projects of virtually any size or complexity.

Highlights of our design-build services include:

- > HVAC and plumbing systems
 - Air distribution
 - Cooling towers
 - Steam and hot water boilers
 - Chillers
 - Medical gas systems
 - Domestic water, storms, and sanitary piping systems
- > Air handling unit replacements
- > RTU replacements
- > Domestic water heater replacements
- > Booster pumps
- > Sheet metal and piping fabrication
- > CAD/CAM software
